LEADER-DOERS. CLOSE TO THE WORK.

Experienced leaders inside the work, from strategy through execution

Corpsulting puts senior leader-doers from our Talent Registry into small teams with your people, so the initiatives that matter most get experienced leadership from the first week, without the overhead of a large firm or the wait of a search.

THREE WAYS TO WORK WITH US

QuickStart — 2 hours to 12 weeks
Focused sessions on a decision

Reserve — 40 to 240 hours
A matched leader on call

ScaleSmart — 4 weeks to 6 quarters
Leader-led teams and pods

HOW INITIATIVES GET DONE NOW

Smaller, purpose-built teams, working closely with AI

AI has changed what gets approved. Expectations are higher, the dollars attached to each initiative are smaller, and there is less time to show a result, so a large team that ramps for a quarter before the work starts no longer fits the business case. The initiatives that get funded now are carried by a small group of people who already know the function, do the work themselves, and use AI to cover ground that used to need a much larger team.

01
Change the team and talent composition
Put a microteam of your own people and one or two senior leader-doers on the initiative, with AI tools built into how the team works from the first week.

02
Use the approved budget you already have
Much of your budget is committed to strategy firms, integration partners, and staffing. Redirecting even a fraction of it can fund experienced leadership this quarter.

03
Help your people step up to lead further
Senior leaders working alongside your team pass on their methods and judgment as they go, so your people learn the function by doing it and the capability stays with you.
